LOCAL MATTERS.

GERMAN LABORERS are wanted for a plantation in a healthy locality. See advertisement. A SOLEMN REQUIEM MASS will be said this morn-

ing at 9 o'clock, at St. Paul's Church, Society street, for the Rev. Father FILLION. STEAMER ANDALUSIA.—We are informed that the

steamship Andalusia did not leave New York for this port until Sunday at 10 A. M., on account of heavy weather. WE ARE requested to state that the cars on the

Rutledge street line and the King street line will

be run for the convenience of persons visiting

the Citadel Square Baptist Church this evening, at the conclusion of the oratorio. THE FOLLOWING are the numbers which drew the principal prizes in the Havana Plan Kentucky State Lottery, Class C, on Thursday, February 14th, 1867: No. 8671, \$50,000; No. 7903, \$20,000; No. 18,740, \$8000; No. 26,136, \$7000; No. 1146, \$5000;

No. 19,644, \$5000. FIRE.—There was an alarm of fire last evening, which brought out the engines. Some little consternation was felt, and the firemen rushed to and fro in admired confusion, but the panic was only temporary, as the alarm proved to be unfounded, and the machines were soon rehoused.

WE CALL the attention of those interested to the extensive sale of furniture now taking place at the Merchants' Hotel. All who are in want of these household articles should attend and secure bargains. Mr. M. L. AIMAR will close up the sale as soon as possible, and an early visit would be ad-

SACRED CONCERT .- One of the greatest musical treats our citizens have ever enjoyed, awaits them this evening. Messrs. Robinson and Ruddock, supported by a corps of talented artists, will present a feast of melody that shall be pleasing as it will be new to most of the audience. The programme is well selected; the music all by the first composers, choice, classic and pleasing. We predict a crowded house. ATLANTIC AND GULF RAILBOAD .- It is only

necessary to mention that Mr. H. S. HAINES is the Superintendent of this road, and the travelling public are satisfied of its efficiency, and would not hesitate to trust themselves upon it. This is decidedly the shortest route to Florida, and pos-sesses advantages unequalled by any other. Baggage can be checked through to various inland points, and every care is taken to make the road a popular thoroughfare. By reference to their advertisement in another column, the new schedule and programme can be seen.

Mrs. Rows.—We take pleasure in publishing the BALTIMORE, February 16, 1867.

Mr. Leonard Chapin, Charleston:

Deak Sir: I notice in the Charleston papers an appeal for Mrs. Donald Rowe, of Orangeburg; please apply the \$5 enclosed to the purpose named. I regret my inability to make it larger.

his exception to the Master's report, and HENRY Buist, Esq., replied.

The case of Angel vs. Angel was then called, and Edward Magrath, Esq., was heard in support of the exception to the Master's report, and W. E. MIRELL, contra. The argument was not concluded when the Court adjourned.

SALES OF STOCK .- At the large stock sale yesterday, by Mr. J. DRAYTON FORD, the following prices were realized:

239,500 Charleston and Savannah Railroad Company's 6 per cent. bonds, guaranteed by State of South Carolina..... annually 66% 667% \$210 City of Charleston 6 per cent. stock, interest 

WE UNDERSTAND that a new reconstruction peti\_ tion has been recently sent to Washington from this city. It has emanated from the freedmen and colored citizens, and claims to be the voice of the community. New rulers are demanded, and a and cure. general change in the present programme made out. This will, no doubt, tickle the palate of the Radical leaders North, and will be greeted as the index of Southern loyalists' opinions. It is useless to comment upon these petitions, or endeavor to prove that they do not represent the sentiments of the public. They are gilded pills to Messrs. SUMNER & Co., and their truthfulness is never Soubted by that immaculate coterie. The signers Flour that will bring you custom? Do you wish Flour of this petition have been very reticent, and little that will make white bread and not sour? Then apply to is known beyond the fact that such a paper has J. N. Rosson, No. 62 East Bay, who has always a large been circulated among us, and has been sent to stock of best brands Georgia, North Carolina, Baltimore the grand high priests at Washington. Their ac- and New York Flour, in barrels, half and quarter bags. tion and the names of the prime movers are at present unknown, and we await further develop-

ments from the seat of government, before we can

post the community in the matter.

PROSPERITY.-We have so often alluded to the street cars that the subject is nearly hackneyed, and except for the favor they receive from the community we would hesitate referring to their status. Their good name, once established, has stuck to them, and they have now become a prominent feature in the body politic. The increased travel demanded increased accommodations, and the Company, wishing to keep pace with the public, have recently furnished several additional cars. These have been long wanted, and their advent will create a great relief to the travellers who have frequently been obliged to take standing room if they wished to secure a passage. The Rutledge WITHAM. street cars have often taken forty passengers at a load, but this was of course something of a jam, and tested the capacity of the coaches to their utmost. The conductors have rendered themselves deservedly popular by their urbanity and attention, and some have become such favorites that they can hardly attend to their patrons. The Nestor of the crew recently performed the unparalleled feat of carrying eighty-three passengers on his car at one time. How this was accomplished it is difficult to say, but the fare was collected and the assertion established. No stronger proof is wanting to show the their office, No. 27 Broad street, at 10 o'clock, furniture, appreciation of these conveyances by the public, and the additional cars will prove anything but a bad investment to the Company.

MAYOR'S COURT, February 19 .- Alderman HONOUR presided this morning in place of the Hon. P. C. GAILLARD, who will be absent from the city for

Elias Perry, a youthful citizen of African descent, who has been several times before the Court for petty stealing, having false keys about him, &c., was brought up for robbing a gentleman's establishment of the money drawer, and was sent to a magistrate, who will engage board for him at the Western Hotel.

Horace Brown, a young darkey, who was picked up in the street two drunk to get any further, and who attributed his situation to going to a tea party up town, and mistaking pine-top whiskey for young hyson, was fined \$5. John Bright, a dark-colored little boy, who had

been stealing railroad iron, was locked up for five days, by way of taking the polish off of him. Henry Burgess, an Ethiopian adventurer, who made love to a boat lying near the New Bridge, and a dozen chickens belonging to somebody else, and was rapidly sailing to some safer shore, but was seen and shot at by the owner of the craft, which brought him to and caused him to make an effort to escape through the mud, when he was .. taken and brought up in a most beautiful plight,

was handed over to a magistrate. John Henry, a very black specimen of human nature, who was walking off with an uncorked decanter of whiskey from a bar room, was imprisoned ten days as a kind of slopper. Two cases of smoking on the wharf, and two

cases of lying down drunk, concluded the docket. and Valuables. TRADE. -A resume of our progress as a community during the past month is very flattering. It is true that the times have changed, but with the new era a great alteration has come over the peo-

ple. Sloth and indolence are now considered

every one to be up and stirring. The good work of reformation and reconstruction can never be performed by drones, and the Southerners are too proud, even in their poverty, to be dependent on foreign assistance to lear their shattered household gods. Peace has not brought plenty, but with the requisite energy and industry a future of contentment is sure, where the results of honest labor are considered not derogatory to character, and the fortune made by the hands of toil will confer credit upon its possessor.

The present is a dark hour, but we have much to be thankful for, and, although our progress has not been as rapid as in the olden time, yet we have been steadily emerging from our desolate condition into the fullness of former days. On every side are to be seen marks of progress that would shame the veriest croaker in the land. The street railway, now an undoubted success; the new buildings, the well filled stores, and the brisk trade done in some localities, all exhibit signs of

progress that are most cheering. The Spring trade promises well; our merchants have all laid in extensive stocks, and the few buyers who have arrived express themselves well pleased with the prospect, and think that old Charleston will soon regain her former supremacy, and be able once more to compete favorably with Northern cities. The different sections of country that formerly bought from Charleston are fast returning to their old allegiance-one trip North has satisfied the merchants that more money can be spent than can be saved, and by dealing with Charlestonians, they not only obtain their goods at the lowest prices, but they are enabled to lessen

their expenditures. Charleston merchants have always been renowned for their liberality, and their customers will find it to be to their interest to return to their old haunts. It is true the credit system has for tunately become played out, but they can obtain as good terms, and can buy as cheap goods in this market as in the larger cities at the North. The facilities for communication with the city are now far superior to those of the past season, and a correspondingly large trade is expected by those who are posted. Everything denotes the fulfillment of this phrophecy. The hotels are gradually being filled, and the strange faces seen along the streets tring reminiscences of the happy days when Charleston was the great business centre of the cotton States. Already the wholesale stores have commenced their night work, and the lights gleaming brightly from the different doorways, prove that there is life in the old land yet, and that trade is by no means so defunct as the croakers picclaim. In former days merchants from this State, North Carolina, Georgia, Tennessee and the Gulf States flocked to this market, and an extensive business was done by our large merchants. This trade is now being gradually revived, and every successive season brings some of the wanderers back to their fold, and the time is not far distant when Charleston will resume her place as the Queen City of the South.

TRAGEDY IN SAVANNAH .- The Savannah Herald, of the 18th inst., says: Shortly after ten o'clock yesterday morning, our community were startled by the intelligence that a horrible murder had been committed, and that afterwards the murderer had immediately taken

his own life.

The melancholy affair took place in the kitchen attached to the "Our House" dining saloon, and the principal actor was a Frenchman named Alfred Meuillot, who was the chief cook in that establishment. His victim was a young man named Philip Judge, about twenty years of age, who, up to with-in a short time since, had been employed there as

who held a knife in his hand at the time, said if Judge repeated that expression he would put the knife into him. The boy made use of the expression again, when, true te his threat, the enraged Meuillot plunged the knife into the body of Judge, inflicting an instantly mortal wound. The knife used was a long carving knife, which was very sharp, and entered the right side, penetrating to the lung and cutting it off. With an exclamation of "Oh, God! I am killed!" Judge fell to the ground and expired almost instantly.

When the murderer saw what he done, he leaned his head and appeared as though praying in French; then, seizing the bloody knife and baring his own breast, he plunged it in some six or seven times in the region of the heart. Laying the knife on the table, he fell dead upon the floor.

After the inquest, friends took charge of the bodies and had them interred. That of Judge was taken in charge by Messrs. Philip Callahan and James Kerrigan, in whose employ he had been, and by whom a handsome metallic coffin was obtained, in which they deposited the remains in the

and by whom a nancsome metamic community tained, in which they deposited the remains in the receiving vault at the Cathedral Cemetery, to await the order of his triends in New York, where he has an uncle living, and, we believe, one sister. Behind the Lighthouse. Old fogyism is not quite dead. People are still to be found who think that health is promoted by depletion Was there ever such a false logic! Nature is the grand antagonist of disease, and the depleters propose to pros trate nature, in order, one might suppose, to give the enemy a double chance at the life of the patient! The true practice is so to invigorate the vital powers as to render them an overmatch for the elements of disease. This can be done with HOSTETTER'S STOMACH BIT-TERS. Of all vegetable tonics they are the most powerful and the most genial. At this season, when even the strongest organizations are liable to be affected by the lternations of stringent cold and malarious moisture this inestimable protective medicine is especially needed. Persons predisposed to biliousness, dyspepsia, constipation, intermittent fever, or any of the complaints which cold weather superinduces or aggravates, should take it regularly throughout the winter and spring months. It is absolutely pure and harmless. For sale by DOWIE & MOISE, Druggists,

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough trial of the American Polygrade Lead Pencils, manufactured by the American Lead Pencil Company, New York, I find them superior to any pencil in use, even to the Faber or the old English Cumberland Lead Pencil, being a superior pencil for sketching, ornamental and mechanical drawing, and all the ordinary uses of a lead per il.

mechanical drawing, and an arrival mechanical drawing, and arrival per il.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

THIS PENCIL IS SIMILAR TO THE ORDINARY lead pencil, and will make a clear black mark that will remain after years of wear and washing. It is a great improvement over ink, as it will not dry up, and can be used with much greater dispatch and economy, as there is no risk of blotting. No preparation being required except the dampening of the fabric to be marked, and no troublesome directions to be followed in its use, it will save much inconvenience to housekeepers, and all who have occasion to mark their clothing. Notices of the Press.

"The marking inks so commonly used for marking linen and other fabrics are inconvenient and troublesome, each bottle being accompanied by a number of 'directions,' which considerably bother the brains of house-keepers. The Indelible Pencil will prevent this, as all the preparation necessary is the dampening of the fabric which is to be marked thereupop."

MISCELLANEOUS. PROSPECTUS OF THE MONROE ADVER-

TISER.

THE UNDERSIGNED, HAVING PUBCHASED THE material and "good will" of the Journal, will commence the publication of a Weekly Paper bearing the above title, at Forayth, Ga., on Tuesday, 5th proximo. The Journal, published for the last 12 years at Forayth, Ga., had acquired an extensive circulation throughout Gargia, as well as other States, and the co-operation of all its former patrons is carnestly solicited in the effort now being made to establish a first class paper.

The ADVERTISER will contain a full resume of the current events of the day, both foreign and domestic, Market Reports, Biographies, Poetry, Agricultural, etc.

The editorial management will be confided to a gentleman whose literary and scholastic attainments are a sufficient augury that his department will be conducted with ability.

ability.

The "Local and Business Advertiser" will contain a summary of news from different portions of the county, which will make the paper a welcome visitor to every hearthstone in "old Monroe," as well as to her many quondam citizens who have removed to other localities. The county of Monroe, once the most opulent is th

State with a population both refined and intelligent-Forsyth, with a flourishing Female C flege, a Male Institute, extensiva mercanitie establishments, etc.—com mands an extensive trade; and the ADVERTISER will prove an excellent medium through which merchants in the North and West, as well as those of Atlanta, Macon, Augusta, Savannah and Charleston, may make known their business in this section.
